### PRAGUE INDUSTRIAL TRADE FAIRS 2017

The trade fairs **FOR INDUSTRY, FOR SURFACE, FOR ENERGO Smart, FOR LOGISTIC, FOR WELD, FOR INFOSYS** and **3Dexpo**, held as concurrent exhibitions from 9 to 12 May 2017, served as a unique opportunity for those interested in news from the industrial spheres. For the first time, the event included also the **FOR JOBS** section, focused on the offer of work in industrial branches.

A total number of 233 exhibitors presented new products and technologies from various industrial branches to visitors on the gross exhibition area exceeding 8,000 m<sup>2</sup>. During four days the trade fair was visited by 7612 visitors.

An interesting professional accompanying programme was prepared for visitors during all four days of the show - e.g. the event entitled **CZECH EXPORT LEADERS** with participation of high representatives of the government, the 3rd edition of the **ENERGO SUMMIT**, which was focused on such topics as **SMART ENERGY** and **ELECTROMOBILITY** or **DYNAMICAL CAR SHOWROOM** presenting fleet vehicles. A traditional part of the event was **3Dexpo**, a conference and the largest 3D printing exhibition in the Czech Republic. The best technical innovations presented at the trade fairs were appreciated by the Expert Jury in the traditional competition **GRAND PRIX**. The most interesting exhibition expositions obtained the **TOP EXPO** award.

### OFFICIAL CARS:

*"Czech Ford is a proud titular partner of ABF a.s. and as such it understands the importance and high standard of the PVA EXPO PRAGUE trade fair events and it is always glad to use a possibility of presenting its products and services to all visitors interested in them, whether representatives of the professional public or private individuals. Both visitors and exhibitors were interested very much in the Ford cars again. We placed emphasis on presentation of models suitable for business purposes, as well as of those intended for private and family uses. The cars are developed not only with regard to safety but also to their design which does not get old. That is why they can become an excellent accessory to modern living. We consider our partnership with ABF as an ideal symbiosis in which we would like to continue, of course."*

Libor Beneš, Marketing Manager,  
FORD MOTOR COMPANY, s.r.o.

### **TESTIMONIALS OF EXHIBITORS:**

*"We were satisfied with the preparation, form, as well as the actual course of this year's FOR INDUSTRY exhibition and it is highly probable that we will include it in the schedule of our exhibition and presentation events for the next year as well."*

Ing. Pavel Hájek, Area Sales Manager, GF Machining Solutions s.r.o.

*"With regard to the already pre-negotiated co-exhibitors for the next trade fair we are looking forward to 2018 very much. FOR INDUSTRY develops in a right way and within two years it could become a specialised trade fair focused on machining and forming which is not missing in the schedule of any firm intending to deal with machining seriously."*

Ing. Tomáš Dederle, TAJMAC-ZPS, a.s., Manurhin Division Director

## GRAND PRIX | TOP EXPO

### ASSESSMENT JURY:

#### CHAIRMAN:

**doc. Ing. Stanislav Mañas, CSc.**

Department of Production Machines and Equipment – Faculty of Mechanical Engineering of the Czech Technical University, Czech-Moravian Society for Automation

#### MEMBERS:

**Ing. Bedřich Kopřiva, CSc.**

Czech Technical University in Prague – Faculty of Mechanical Engineering

**Ing. Lukáš Procházka**

Secondary Technical School in Prosek

As the tradition goes, the event was accompanied by the GRAND PRIX competition for the best exhibit or technology, which are assessed by the Expert Jury directly at the stands of exhibitors registered in this competition. Altogether 13 registered exhibits took part in the competition for the best exhibit/technology.

The winning exhibits were announced during the Gala Evening which was held on Thursday, 11 May 2017 in the Congress Hall at PVA EXPO PRAGUE. The awards are granted without any detailed order specification and the following firms were appraised:

#### **TAJMAC-ZPS, a.s.**

For: CNC long-turn automatic machine Manurhin K'MX 916 Clever

#### **BONEGA, spol. s r.o.**

For: Ověření návrhu.cz design verification system

#### **STYLE CNC Machines B.V.**

For: STYLE BT1500E

#### **Honorary Mention of GRAND PRIX was granted to:**

#### **MEICO SYSTEM'S s.r.o.**

For: Mtool

#### **GF Machining Solutions s.r.o.**

For: WPT1+ Automation System

**GRAND  
PRIX**

**TOP  
EXPO**

In the TOP EXPO competition for the best-arranged exposition the awards were provided to the following firms:

**KEYENCE INTERNATIONAL BELGIUM NV/SA**

**Asseco Solutions, a.s.**

On 11 May 2017, an important meeting of energy experts known as ENERGO SUMMIT was held. The general partner of the ENERGO SUMMIT was the ČEZ Group. The main topics of the event were SMART ENERGY and ELECTROMOBILITY.

The lecturers presented a design of energy self-sufficient buildings in the Czech Republic as well as in the world and paid special attention to development of the Czech power engineering sector in relation to the European energy network. Among other guests it is necessary to mention the speeches of representatives of the Ministry of Industry and Trade, Ministry of the Environment, Energy Regulatory Office, ČEZ and ABB companies.

## PROGRAMME OF THE SUMMIT

### SESSION I – Introductory session

- 9.30 a.m. – 9.35 a.m. Current development of power engineering and European vision: Decentralised system of energy resources, more rights and freedom for consumers and energy efficiency.  
*Jakub Černožanský, Government of the Czech Republic (CZ)*
- 9.35 a.m. – 9.40 a.m. Smart grids – costs and benefits for consumers  
*Ing. Pavel Martínek, Energy Regulatory Office (CZ)*
- 9.40 a.m. – 9.45 a.m. Power engineering as fuel of social changes  
*Ing. Jan Prokš, Ph.D., Electrical and Electronic Association of the Czech Republic (CZ)*
- 9.45 a.m. – 9.50 a.m. Is the energy sector in the Czech Republic ready for new trends?  
*Ing. Dagmar Kuchtová, Confederation of Industry of the Czech Republic (CZ)*
- 9.50 a.m. – 9.55 a.m. SMART CITY concept from the viewpoint of the Ministry of the Environment  
*Ing. Vladislav Smrž, Ministry of the Environment (CZ)*
- 9.55 a.m. – 10.00 a.m. Energy savings - an important source of energy  
*Ing. Vladimír Sochor, Ministry of Industry and Trade (CZ)*

### SESSION II – SMART ENERGY

- 10.20 a.m. – 10.35 a.m. Smart energy - smart or stupid?  
*Mgr. Dr. Petr Štulc, ČEZ ESCO, a.s. (CZ)*
- 10.35 a.m. – 10.55 a.m. Building in the standard of nearly zero-energy buildings (nZEB) as a proactive element of the energy system  
*Ing. Cyril Svozil, Fenix Group, a.s. (CZ)*
- 10.55 a.m. – 11.15 a.m. Implementation of the Sigfox wireless communication technology in power engineering  
*Ing. Tomáš Poláček, SimpleCell Networks, a.s. (CZ)*
- 11.15 a.m. – 11.35 a.m. SMART CITIES concept of the Capital City of Prague  
*Operátor ICT, a.s. (CZ)*
- 11.35 a.m. – 11.55 a.m. Zero Energy Buildings in France  
*Maeva Tholance, ADEME (FR)*

### SESSION III – ELECTROMOBILITY

- 13.20 p.m. – 13.40 p.m. Electromobility as a part of SMART CITIES  
*Ing. Tomáš Chmelík, Ph.D., ČEZ (CZ)*
- 13.40 p.m. – 14.00 p.m. Electromobility in the mass urban transportation  
*Ing. Miroslav Kuželka, ABB, a.s. (CZ)*
- 14.00 p.m. – 14.20 p.m. Current subsidy schemes concerning energy savings and electromobility  
*Ing. Pavel Sehnal, Anyloplex plus, s.r.o. (CZ)*

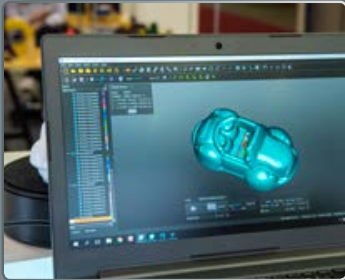

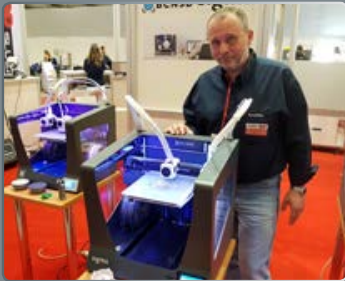

### TESTIMONIALS OF EXHIBITORS:

*"With regards to the size of the Czech market, the fourth edition of the 3Dexpo conference and exhibition proved that it is an essential presentation of the best of the 3D printing sector in the country."*

Tomáš Vít, editor-in-chief, 3D-tisk.cz

**3Dexpo |** 3Dexpo 2017 held in Hall 6 brought the latest trends of 3D printing as well as other modern 3D technologies. The conference programme, accompanying seminars and expositions of more than twenty exhibitors from the Czech Republic and Slovakia were visited by more than seventeen hundred pre-registered participants and by many other visitors. A lot of innovations were presented for the Czech market in live transmission – from very interesting RepRap modular kits of Czech designers to continually improving multi-material 3D printers and production equipment with prices amounting to hundreds of thousands of crowns.

*"The FOR JOBS trade fair was a success for us and we want to thank organisers for their perfect organisation. We got a lot of leads and we will be happy to join the event next year."*

Bohdan Šmilauer, INTERLINGVA CZ

**FOR JOBS |** The FOR JOBS section offered for the first time an overview of available job positions in industrial sectors. That is why the visitors could extend not only their knowledge concerning new technologies, but they were also able to increase their awareness relating to other career opportunities. The professional partners of FOR JOBS were the Ministry of Education, Youth and Sports and the Labour Office, Regional Office of Prague. The event was organised under the auspices of Mgr. Michaela Marksová, Minister of Labour and Social Affairs.
