

# GLOBALDIGITAL FORUM

Bridging Innovation and Business Growth

12 - 13 February 2019  
Santa Clara Convention Center,  
California, USA

[www.gdfevent.com](http://www.gdfevent.com)

## **PRITH BANERJEE**

Senior Client Partner - Korn Ferry  
Convenor - Global Digital Forum

Dear Visitors,

On behalf of the Organizing Committee and Program Committee of the event, I welcome you to the Global Digital Forum.

Digital technologies such as Cloud, Mobile, Artificial Intelligence/Machine Learning, Internet of Things (IOT), Big Data, 3D printing, Robotics, and Augmented Reality/Virtual Reality, and Blockchain, are disrupting entire industries such as logistics, energy, transportation, hospitality, retail, healthcare, manufacturing, and aerospace. The Global Digital Forum will bring together business leaders, entrepreneurs, technologists, academics, strategists, and thought-leaders to discuss the latest trends in the world of Digital and how it is impacting various industries.

In this event, we will explore how four horizontal technologies, AI, IoT, Security & Blockchain and Cloud are impacting the following vertical industries:

- Financial Services
- Energy and Environment
- Retail, Consumer, Media and Entertainment
- Healthcare and Pharmaceutical
- Government, Infrastructure and Smart Cities
- Logistics, Transportation and Automotive
- Manufacturing and Factory Automation
- Agriculture and Farming Equipment

Join us at Global Digital Forum as the world thought leaders and professionals are gathered to bridge the gap between innovation and business growth.

We welcome you all at this mega event to interface with the technology we need to practice or should practice for sustainable business growth.

Our motto is Let's get together To solve together.

## Bridging Innovation & Business Growth

# ABOUT THE EVENT

Global Digital Forum brings together business and technology leaders to explore the real-world application of **AI, IoT, Security & Blockchain and Cloud**. GDF is the innovation hub that connects a growing ecosystem of end-users, developers and technology innovators who will gather to experience what's possible and see how these technologies will transform businesses. GDF will leverage a comprehensive digital platform that connects leading industries to each of the 4 digital areas.

The event is designed with the notion to secure higher degree global representation by focused approach towards participations from BRICS countries and developing nations leading to multitudinous lead generating opportunities. During the event, attendees and participants can explore potential business opportunities;

- By networking with industry peers
- Start-ups from BRICS nations will get an opportunity to meet VCs from the Silicon Valley
- VCs can discover an opportunity to see innovation in other nations

# MEET POTENTIAL PARTNERS

# ABOUT THE CONFERENCE

**Global Digital Forum (GDF)** is a global technology conference that has been uniquely designed to bring together an unparalleled line-up of business leaders, practitioners and customers from all over the world, engaged in driving change at the intersection of Artificial Intelligence, Security/Blockchain, Cloud Services and Internet-of-Things and key industry verticals.

If you are seeking to leverage these business and technology insights to advance your company's strategic imperatives and enhance your customers' experiences, this conference is for you!

With a theme "**BRIDGING INNOVATION AND BUSINESS GROWTH**", GDF promises to immerse you with real-life use cases from practitioners, breakthrough technology ideas from innovators, strategic vision from thought leaders and industry predictions from analysts in this rapidly changing era of Digital Transformation affecting the following industry verticals:

- Financial Services
- Energy and Environment
- Retail, Consumer, Media and Entertainment
- Healthcare and Pharmaceutical
- Government, Infrastructure, Smart Cities
- Logistics, Transportation and Automotive
- Manufacturing and Factory Automation

**Join us at GDF from 12-13 February, 2019 at the Santa Clara Convention Center** to learn how these advanced technologies are changing your customer expectations and what you need to know to stay ahead of your competition.

## WHY TO ATTEND

### Be the First

Get the competitive edge of latest products/technologies and services releasing in different markets worldwide. Explore the way companies are leading next generation of digital technologies

### Discover

Global Digital Forum is the best place to discover the most suitable and cost-effective products from real suppliers. Discover more in AI, IoT, Security & Blockchain and Cloud Technology and Services

### Gain New Ideas

Get practical guidance in implementing four key advanced technologies in leading sectors by engaging face to face with the suppliers and marketers. Get an idea to innovate, design or customise technology as per the respective markets.

### Generate New Connections

Global Digital Forum will put you at the centre of best of the breed companies offering latest and innovative products. Explore the opportunity to meet top officials and manufacturers face to face and develop long-term business relationships

# THE GDF DIFFERENCE

Global Digital Forum (GDF) is a global technology conference that has been uniquely designed to bring together an unparalleled line-up of thought leaders, customers and technology innovators engaged in driving change at the intersection of Artificial Intelligence, Security/Blockchain, Cloud Services and Internet-of-Things and key industry verticals.

Specifically, you can expect to learn thought provoking insights about advancing your respective businesses across these key technologies that are shaping the future of Digital Disruption and Transformation by:

- **Exchanging Ideas with 4999+ Business Leaders and Practitioners from Across The Globe:** The Global Digital Forum is committed to drive a true global assembly of business leaders, and IT vendors alike, including Latin America, Asia-Pacific and other emerging economies, in an effort to bring you a comprehensive picture of how these technologies are shaping customer expectations across the globe. And how you should respond to these expectations.

- **Learning About Real Life Use Cases from Customers and Technology Leaders:** Be the first in your industry to know how these technologies can drive sustainable business value for your organization through a uniquely matrixed format of 100+ eclectic product-agnostic presentations and panel discussions.

- **Gleaning Unprecedented Insights from Thought Leaders and Industry Analysts:** The Global Digital Forum presents a uniquely distinct opportunity for every attendee to learn about global trends and predictions across Artificial Intelligence, Security/Blockchain, Cloud Services and Internet-of-Things, all under one roof!

GDF is the only conference of a truly global nature that strives to drive such comprehensive coverage of these game-changing technologies and their relevance to the following industry verticals.
