

Why 3D Matters?

Have a brilliant idea but unsure of how to make it come to life? Need professional tweaks to your current design sketches to ensure a final product that is both functional and aesthetically pleasing? Require our ultra-fast turnaround service for your urgent projects?

Contact us today for a non-obligatory consultation with our in-house 3D design, modelling and engineering team and experience for yourself why 3D Matters is one of the leading 3D printing integrated service bureau across Southeast Asia.

Partnering 3D Matters means you never have to worry about any compromise in design

We believe that design perfection is born when art meets science. That's why we make it a point to infuse our proprietary 3D design and modelling processes into all projects entrusted to 3D Matters – no matter how big or small. Complemented by state-of-the-art printers, scanners and extensive range of print materials, we are also able to provide world-class finishing, touch-ups and other innovative packaging and presentation options so that your end product always becomes the talk of the town.

About 3D Matters

Founded in Singapore in 2012, 3D Matters is a fast-growing 3D Printing service bureau providing end-to-end additive manufacturing solutions across Southeast Asia.

Apart from helping our clients with scale-accurate models and fast prototyping, we also enhance their design and manufacturing capabilities to shorten lead times for spare and obsolete parts as well as speeding up time to market for new products.

Contact us today to find out how you can be a game changer for your company through innovations in 3D printing.

3D MATTERS

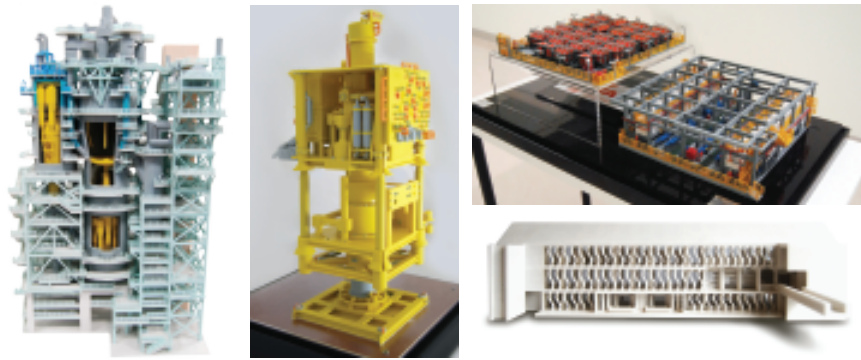

ADDITIVE MANUFACTURING

Models

MODELS

Perfect as a centrepiece for display galleries or the commissioning of facility launches, 3D models are also increasingly used in exhibitions and sales presentations to impress clients or support strategic management planning. More durable and longer lasting than traditional models, 3D models can be produced much faster and are highly configurable to showcase the most minute of details.

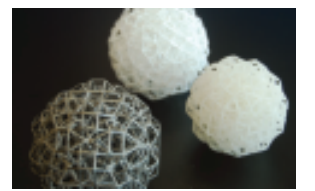

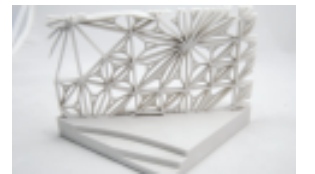

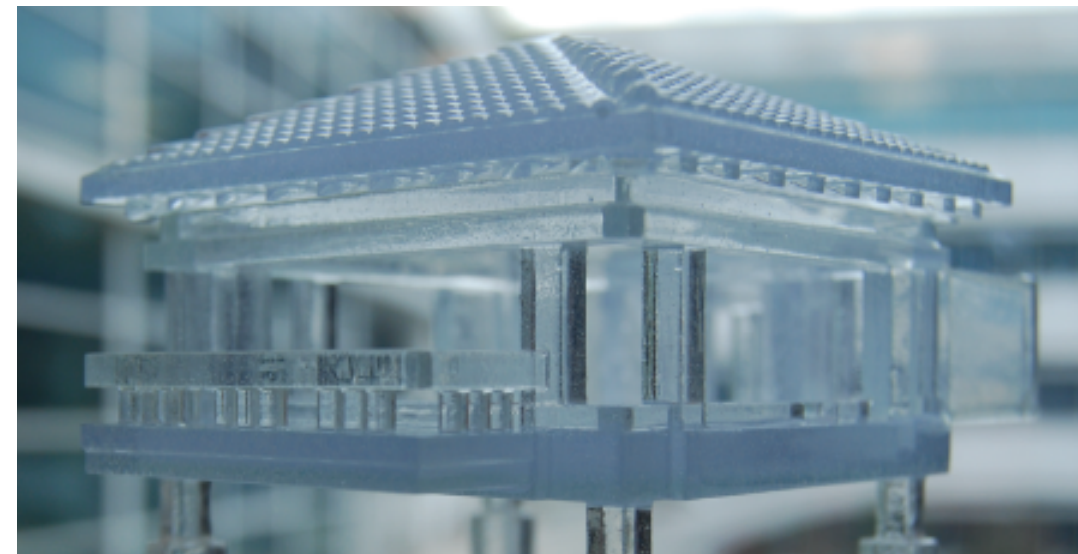

GIFTS

Wow customers with a thoughtful and stunning gift that reminds them of your brand, value propositions and service offerings. Create a connection by weaving in corporate identity, logos and colours to further assure top-of-mind recall.

FIGURINES

Capture the eternity of the moment or celebrate special occasions with highly realistic figurines and personalized collectibles. Also great as alternative to traditional trophies, model employee or long service awards.

DESIGN

With an extensive range of material to choose from, we can help you push frontiers in aesthetics through contour crafting and futuristic curvilinear designs, tessellations and other possibilities by varying texture and media. 3D Printing is also an eco-friendly method that optimizes design construction to minimize waste and improve product performance.
