

## Power Up Your Productivity with the ATEN Thunderbolt 3 Docking Station

*UH7230 endows your 4K state-of-the-art workspace with multiport connectivity*

**Taipei, Taiwan (January 4, 2018)** – ATEN, the leading provider of IT connectivity solutions, announced its latest Thunderbolt 3 Multiport Dock solution, [UH7230](#), designed to create a simplified yet productive 4K state-of-the-art workspace. The ATEN UH7230 Multiport Dock delivers more connectivity to your MacBook Pro or Windows laptop and more charging capability than ever before. The dock supports ultimate 5K resolution or dual 4K displays and can transfer unprecedented amounts of data at up to 40Gbps. It is ideal for creative professionals and those who work with high-resolution, and graphic-intensive images, video, and CAD drawings, such as video producers, graphic and web designers, architects, and more. Harness the full potential of Thunderbolt 3 and embrace the next generation of workstation connectivity.

### ATEN UH7230 features

- **Supports dual 4K or 5K resolution for graphics-intensive multitasking** – combining a truly immersive next-generation visual experience with amazing throughput speeds, the UH7230 allows you to connect two 4K displays (one DisplayPort and one Thunderbolt 3 USB-C port) or one latest generation 5K display, with nearly 16 million more pixels than an HDTV. Enjoy the astonishing resolution, contrast and color depth, whether you are editing videos or digital media, designing graphics or using any application that requires high-definition visuals.
- **Up to 85W power delivery for Mac or Windows laptops** – UH7230 is an intuitive central hub for not only connectivity expansion but also for charging your laptop and USB accessories. It supports up to 85W of power delivery for Mac or Windows laptops.
- **Blazing fast speed to boost productivity** – with Thunderbolt 3's phenomenal bandwidth, up to 40Gbps, transferring a 4K movie needs less than 30 seconds.

- **Single cable for astounding expandability** – Using the single Thunderbolt 3 cable (included), the docking station expands the connectivity up to 8 ports, including audio, Gigabit Ethernet, DisplayPort, Thunderbolt 3 USB-C and USB 3.1 Gen 1 ports to accommodate your most demanding computing needs. A Thunderbolt 3 port is also provided to daisy chain up to 5 additional Thunderbolt 3 devices, such as data storage.
