

ISO 9001:2015 Quality Management System for Baty International Ltd

Baty International Ltd, as part of the Bowers Group, is pleased to announce that it has achieved [ISO 9001:2015 Quality Management Systems Standard](#). Following rigorous examination of its procedures and performance relating to leadership, risk management, and satisfying customer requirements, Baty has been awarded the prestigious certification which includes the design, manufacture, and service of **contact and non-contact dimensional measuring equipment**.

Commitment to Continuous Improvement

Steve Hyde, Customer Support Manager at Baty International said: “We are delighted to have achieved ISO 9001:2015 under the world’s most recognised quality management standard. As the manufacturer and supplier of **leading metrology machines**, this accreditation is proof of our commitment to continuous improvement.”

Latest Update to the Quality Management System Standard

Baty International Ltd began the process to achieve **ISO 9001:2015** last year, which is the latest update to the quality management system standard. ISO 9001:2015 provides an integrated approach to quality management and continual improvement, helping businesses to **monitor and manage quality** across all operations, as well as achieving consistent performance and service.
