## Cincoze CS100/P2000 Wins COMPUTEX d&i awards 2018

Cincoze is pleased to announce today that CS-100/P2000 series sunlight readable panel PC has won Computex d&i awards 2018 in the "Systems + Mobile Communication" category.

The COMPUTEX d&i awards, hosted for the first time in 2008 by TAITRA in cooperation with iF, have become a constant feature of the COMPUTEX TAIPEI trade fair. This year, the jury chose its winners following close examination and assessment of 212 entries submitted by participants from ten countries. The winning products are evaluated on 5 criteria: "Innovation and Elaboration", "Functionality", "Aesthetics", "Responsibility", and "Positioning."

"We are honored to receive this prestigious award and committed to bringing best-in-class products to our customers." said Brandon Chien, CEO of Cincoze. "CS-100/P2000 series is suitable for outdoor applications, with ultra-high brightness and wide temperature range, which can guarantee the reliability and stability of the system. The sunlight readable panel PC is powered by the 6th Generation (Skylake) Intel Core i5-6300U CPU and available in numerous versions covering a variety of display sizes from 12 to 19 inches."

For more information, please visit Cincoze booth (K0208) at Nangang Exhibition Hall during COMPUTEX.

### About Cincoze

Cincoze, a professional manufacturer of embedded computing platforms. We design, manufacture, and market Rugged Fanless Computer, Industrial Panel PC, and Monitor for harsh and demanding environments. With its leading-edge products and application-driven functionalities, Cincoze enables new technologies and solutions for multiple applications, including factory automation, machine automation, machine vision, in-vehicle computing, intelligent transportation, and surveillance.
