

Come and meet IBASE at SPS Italia 2022

2022 - 05 - 05

SPS Italia, the reference fair for the smart and digital automation, will take place in Parma from 24 to 26 May 2022. IBASE will be exhibiting the latest product offerings that include the edge AI computing systems, 12th Gen Intel® Core™, AMD Ryzen Embedded V2000, RISC-based solutions, as well as a series of IoT gateway and embedded systems targeting AIoT and IIoT applications. Come and meet us at stand D064, hall 6 to talk with our experts on site about your needs and how we can provide the right solutions and time-to-market advantage for your projects.

- ASB210-953-AI Edge AI Computing System with Hailo-8™ M.2 AI Acceleration Module
- 12th Gen Intel® Core™-based ET980 COM Express and MBB-1000 ATX motherboard
- AMD Ryzen™ Embedded V2000-based IB952 3.5" SBC and MI989 Mini-ITX
- AGS103T Ultra-Compact IoT Gateway Edge Computing System
- EN50155-certified MPPC1201PC Transportation Panel PC

Please use this opportunity to have an in-depth discussion with us regarding your requirements. To allow sufficient time for the meeting, please contact us in advance for scheduling by writing to sales@ibase.com.tw.
