LAGUNA

“Cutting, Engraving, Etching. Whatever the material and shop size, a LAGUNA machine will save you time and money.”

As experienced specialists, we support our customers and partners around the country with products, solutions and services in the CNC machine industry. We are at home in their markets and know the technological challenges of tomorrow.

We are therefore continuously developing innovative, sustainable and useful solutions for their individual needs.

A photograph of a CNC router setup. Three tool heads are mounted on a white base, positioned over a dark metal grid table. The text "CNC ROUTERS" is overlaid in white. The background is dark and out of focus.

CNC ROUTERS

Standard iQ

Laguna's iQ bench top CNC router is ideal for prototyping and smaller production runs. It features a work envelope of 24" x 36" and includes an industrial-grade, liquid-cooled electrospindle. Despite its smaller footprint, it has the same accuracy and cut quality of much larger CNC machines and woodworking routers.

- Spindle: 3HP Industrial Single phase Continuous Duty Liquid-Cooled
- Spindle RPM: 6,000 – 24,000 RPM
- Controller: Hand Held
- Ball Screw: On All Axis

3HP Spindle

Handheld Controller

Heavy-Duty Frame

ACCESSORIES

RECOMMENDED

Maglube Misting System

If you work with aluminum regularly, the Maglube Coolant system is the best way to extend tooling life, increase edge quality and performance.

Cold Gun Mister

This quiet Cold Gun produces cold air at 20°F from compressed air to extend tool life, stop burning, and reduce wheel loading.

4TH Axis Turning

The 4th Axis attachment allows you to easily engrave or etch cylindrical objects.

C-Flux: 2HP Cyclone Dust Collector

iQ Pro

The Laguna iQ PRO WITH ATC has enhanced the best-selling iQ CNC with an advanced handheld control that allows for tool path previewing, 5 position automatic tool changer & vacuum table.

- 3HP Industrial single phase continuous duty Liquid-cooled spindle
- 5 Position automatic tool changer
- 6,000 RPM – 24,000 RPM spindle
- Handheld controller
- Vacuum table
- 10" gantry
- Available in 2x4

Vacuum Table

5 Position ATC

Dual Drive Motors

ACCESSORIES

RECOMMENDED

Laser Attachment

This laser attachment turns your CNC machine into a powerful laser cutting, engraving, and etching machine for various materials.

4TH Axis Turning

The 4th Axis attachment allows you to easily engrave or etch cylindrical objects.

Maglube Misting System

If you work with aluminum regularly, the Maglube Coolant system is the best way to extend tooling life, increase edge quality and performance.

C-FLUX: 2HP Cyclone Dust Collector

Swift

The Swift CNC routers were made with craftsmen looking for a budget-friendly CNC router in mind. Efficient and affordable, the Swift CNC routers don't sacrifice quality for price. 4th axis rotary option available.

- 3HP Liquid cooled electro spindle
- 6,000 – 24,000 RPM Spindle
- Handheld Controller
- 7 ½" Gantry Height
- T-Slot Table Complete
- Ball Screw on Z Axis
- Double helical rack drive on X & Y Axis
- Available in 4x4, 4x8 and 5x10

4th Axis Ready

4TH Axis Turning

The 4th Axis attachment allows you to easily engrave or etch cylindrical objects.

C-FLUX: 3HP Cyclone Dust Collector

Swift With Vacuum Table

The Laguna Swift Vacuum CNC Router features a work envelope of 4' x 4', 4' x 8', 5' x 10'. It also includes an industrial-grade liquid cooled electrospindle. The Swift vacuum features a 4-zone (4' x 4' table) or 6-zone (4' x 8'/5' x 10') vacuum phenolic table to hold down your parts.

- 3HP Water Cooled Electrospindle (ER-20 Collet)
- 6,000 – 24,000 RPM Spindle
- Vacuum Table
- Hand Held Controller
- Gantry Height: 7.5 inches
- Ball Screw on Z Axis
- Double helical rack drive on X & Y axis

C-FLUX: 3HP Cyclone Dust Collector

Swift MT

The Laguna MT Has Everything You Need To Handle Your Routing, Cutting And, Creasing Operations. With The Laguna Vision System, You Can Quickly Find Registration Marks To Identify Parts And Adjust The Cutting Path, Giving You Perfect Cutouts In Printed Shapes.

- 3HP Liquid-Cooled Industrial Spindle
- LAGUNA Vision System
- Tangential Knife System
- One-Piece Welded All-Steel Frame
- 4 to 6-Zone Phenolic Vacuum Table
- Helical Rack and Pinion On X and Y Axis
- Ground Ball Screw On Z Axis
- 7in Gantry Clearance

C-FLUX 3: 3HP Cyclone Dust Collector

SmartShop® M

The Best Value CNC Router available on the market, The SmartShop® M offers the capabilities of a full-scale, high priced CNC Router without the price point.

- Air-cooled Italian-Made 5.5HP Hiteco Spindle
- 8 Position Automatic Tool Changing System
- 4 to 6 Zone Vacuum Table
- HiWin Linear Guide Rails
- Heavy-duty one-piece all-steel frame
- Allows expansion for 4th Axis Turner

SmartShop® 2

The Smartshop® 2 is the workhorse of businesses all around the world. Featuring three standard work table options, two spindle options and several customizations with accessories to be added. The SmartShop® 2 will increase your production exponentially.

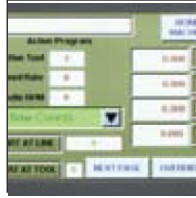

- B&R Industrial controller with touch screen commands
- 12HP HSD Spindle
- Japanese made helical rack-and-pinion on X and Y axes
- German ball screw on Z axis
- Precision Linear HiWin Guide Rails
- Heavy-duty one-piece all-steel frame
- Available in 4x4, 4x8, 5x10
- All Steel gantry
- Allows expansion for 4th Axis Turner

SmartShop® 2 SUV

Based on the robust and reliable platform of the Smart Shop® 2, proven in hundreds of applications over the past 10 years, the SmartShop® 2 SUV offers a host of new features and enhanced performance.

- B&R Servo drive motors
- B&R Industrial controller with touch screen commands
- 12HP HSD Spindle
- Japanese made helical rack-and-pinion on X and Y axes
- One Piece Tubular Steel Frame
- Cut speeds up to 1000 ipm
- 1,600in/min Rapid Travel
- Servo Drive System For X, Y, Z, and A
- Allows expansion for 4th Axis Turner

SmartShop[®] MT

The Laguna SmartShop[®] MT is the most versatile router platform ever created. With an extended gantry and extra-large tool plate, the machine can be configured to meet multiple production needs in a single machine.

- Z Axis Lead Screw Drive System
- 6-Zone Phenolic Grid Table with Embedded T-Slots
- One Piece Tubular Steel Frame
- Centralized Lubrication System
- 12 HP HSD Air-Cooled Spindle
- LAGUNA Vision System
- Tangential Knife System
- 10HP Vacuum Pump
- Centralized Lubrication
- WinCNC Controller
- Add up to three tool devices

OPTIONAL FEATURES

Laguna Vision

Modular Optical Recognition System for multi-functional flatbed machines for industrial usage in exact-outline digital finishing processes.

Oscillating Tangential Saw

A powerful oscillation motor moves the blade quickly while an actuator rotates the blade in each direction, allowing precise cutting.

Tangential Knife System

Our knife system allows you to choose from many different blade types: Drag, Kiss Cut, Spear, and many more.

SmartShop® Auto Loader

The All New Automatic Loading and Unloading machine complete with clean sweep technology is a game changer for those shops looking to produce the maximum number of orders with quick and reliable delivery times.

Primarily designed for the panel processing sector, the SmartShop AL also excels at machining plastic and non-ferrous metals.

SmartShop® 3

Developed with the highest-quality components from Industry leaders Fanuc and HSD, the Smartshop® 3 was developed for those customers demanding the highest possible throughput and productivity. The heavy-duty fixed table design saves valuable floor space while allowing for a high rate of material removal and sheet processing under continuous duty conditions. With the optional 16HP 4 bearing spindle, the Smartshop 3 can machine ferrous metals making it the most versatile CNC in the industry.

- FANUC Oi-MF Controls Systems
- 1,500 watt FANUC Servo package
- 12HP HSD Spindle
- HSK-63F tool holders
- 8 Pos. rotary auto-tool changing system
- 4'x4', 4'x8', 5'x10', 5'x12', Custom Sizes
- 12" Gantry clearance
- 12" Z-travel
- Cut speeds up to 1,600ipm

SmartShop® 3 +2

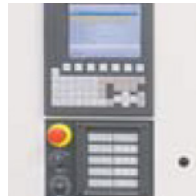

The Laguna SmartShop® 3+2 Axis CNC Machine gives you the added benefit of multiple cutting angles and compound machining within a solid, compact platform. A heavy one piece steel frame is matched with an industry leading FANUC industrial control. Depending on your application, customer can choose from several 5-axis options from HSD to fit their specific needs.

5-Axis Head

8 Position ATC

FANUC Control

FEATURES

- 5 to 1 Shimpo planetary Gear boxes on the X & Y Axes, helical rack and pinion design enhances accuracy and rigidity
- FEA-engineered, heavy, wall, all-steel bridge, vertical columns, and table support base
- Smart design allows for easy and unrestricted access to all sides of the machine
- Standard 8-position, dynamic automatic rotary tool changer
- FANUC Oi-MF industrial control with FANUC 1,500-watt servo package
- 12, 24 and 36 gantry clearance options

SPECIFICATIONS

- Factory-provided advanced technical and applications support, onsite machine installation and training
- Compact design saves valuable floor space
- Full 3D capacity with helical interpolation
- Standard table sizes: 3×8, 5×10, 5×12, 6×10 and 6×12
- Laguna universal vacuum table: pod-ready
- One-piece welded tubular steel frame
- 12HP HSD electrospindle – 24,000 rpm
- HSK-63F spindle taper or ISO-30
- Table sizes available up to 6×20
- Cutting speeds up to 1,000 IPM
- Rapid travel up to 2,500 IPM
- Adjustable pop-up pins
- Laguna full 1-year warranty
- FANUC controller 2-year warranty

SmartShop® 5 Axis

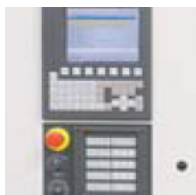

The Laguna SmartShop® 5 Axis CNC Machine gives you the added benefit of multiple cutting angles and compound machining within a solid, compact platform. SmartShop® J

The newest model in the SmartShop lineup, the J is able to precisely and consistently route several types of standard joints. From classic mortise and tenon joinery to lockset and hinge mortising, the J comes with a 4.5HP air-cooled spindle, Delta Servo Motors and Drivers, a central lubrication system, pneumatic positioning pop-up pins, and a DSP handheld control system.

FEATURES

- Strengthened Steel Structure
- 4.5HP Air Cooling Spindle
- 5HP Delta Inverter
- DSP Control System
- 750w Delta Servo Motor And Driver
- Bakelite Table
- Lubrication System
- Pneumatic Pop Up Pins
- UL Cable And Electric Components

SPECIFICATIONS

- 4ft or 8ft Capacity
- 2-Zone Work Station
- 6in of Z-Axis Travel
- Max Trench 1.5in
- 4.5HP Air Cooled Spindle
- DSP Handheld Controller
- Delta Servo Motors
- Pneumatic Hold Down
- 3-Axis Interpolation

SmartShop® Composite Fabricator 16

The SmartShop® Composite Fabricator is specifically designed for cutting Aluminum Composite Panel (ACP) or Aluminum Composite Material (ACM). ACM is a widely used term describing flat panels that consist of a non-aluminum core bond between two aluminum sheets. Aluminum sheets can be coated with PVDF or polyester paint. ACPs are frequently used for external cladding of buildings (building facades), for insulation and for signage. Laguna has fabricated the perfect machine to conquer this material.

FEATURES

- Huge machining area 5' x 16' —1500mm x 4800mm *Custom sizes available
- Unique Pressure "Shoe" design for optimum depth accuracy- even if the panel is not completely flat
- Helical Rack and Pinon drives on X and Y axes. Ball screw on Z axes
- 1,2 and 3 spindle design. Also available with ATC spindle.
- (3) 6HP Italian HSD spindles shown on machine below

SPECIFICATIONS

- Huge machining area 5' X 16' —1500mm x 4800mm *Custom sizes available
- Unique Pressure "Shoe" design for optimum depth accuracy- even if the panel is not completely flat

A detailed view of a laser cutting head in operation. The head is a complex mechanical assembly with a black upper housing and a cylindrical body. It is mounted on a white circular base. The laser nozzle is positioned just above a metal plate with a hexagonal pattern. A blue cable is connected to the side of the head. The background shows the industrial environment of a laser cutting machine.

LASER SERIES

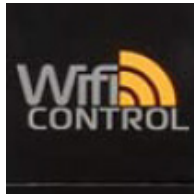

SmartShop® MX Laser

The Laguna SmartShop® Laser MX comes equipped with a RECI laser tube offering high output power with incredible resolution. Convenient WIFI controls, automatic focusing, precision linear guide rails, and more features come together to create a user-friendly CO2 laser cutter capable of incredible power and fine detail.

- Reci Laser Tube 100W
- Table Dimensions 36" x 24"
- Dimensions: 55"L x 53.5"W x 42"H
- Lift Table: Up to 7"
- Honeycomb Table Included
- Knife Table Included

Laguna Fan Design

Nothing is more critical than the fan: Its design and quality are paramount to obtain maximum performance.

The Golden Triangle

Cyclones are designed to put the maximum amount of dust directly into drum without ever passing through the fan.

Smart Sensor LED

Alu Control & Smart Sensors (show when the drum is full and when filter needs cleaning).
*Available only on PIFLUX

Cyclone Remote

High frequency remote does not require line-of-sight.

SUPERBRUSH SANDERS

SuperBrush

Laguna SuperBrush™ offers a wide variety of sanders to meet the many needs of any woodworking shop. Our goal is to provide an excellent priced machine yielding an incredible return on investment by creating faster output, reduced rework, and greater product consistency. Available in both single and double brush heads.

- Precision height adjustment
- Bristle Contact Gauge included
- Greater surface consistency
- Single Head 0-15 FPM, Double Head 0-30 FPM
- Infinitely variable brush speed and conveyor feed rate
- Quickly change brush heads
- Fully adjustable tension rollers

Software Training

Our objective is to ensure that Laguna customers have all of the tools necessary to bring their ideas to reality. We offer in-house and online software training sessions for VCarve, Aspire and RhinoCAM customers.

- Importing & Toolpathing 3D models in VCARVE/ASPIRE
- IQ Rotary Applications - Job Setup
- 'Z' Zero - Top of the material or bottom?
- Sketchup to Vectric V-Carve Pro cabinet tutorial

VCarvePro

Aspire

CNC Limited Warranty

New CNC machines sold by Laguna Tools carry a one-year warranty effective from the date of shipping. Laguna Tools guarantees all new machine sold to be free of manufacturers' defective workmanship, parts, and materials. We will repair or replace without charge, any parts determined by Laguna Tools, Inc. to be a manufacturer's defect. We require that the defective item/part is determined to be damaged due to lack of maintenance, cleaning or misuse/abuse, the customer will be responsible for the cost to replace the item/part, plus all related shipping charges. This limited warranty does not apply to natural disasters, acts of terrorism, normal wear and tear, product failure due to lack of maintenance or cleaning, damage caused by accident, neglect, lack of or inadequate dust collection, misuse/abuse or damage caused where repair or alterations have been made or attempted by others.

Laguna Tools, Inc. is not responsible for additional tools or modifications sold or performed (other than from/by Laguna Tools, Inc.) on any Laguna Tools, Inc. woodworking machine. Warranty maybe voided upon the addition of such described tools and/or modifications, determined on a case-by-case basis. Software purchased through Laguna Tools, Inc., is not covered under this warranty and all technical support must be managed through the software provider. Normal

user alignment, adjustment, tuning and machine settings are not covered by this warranty. It is the responsibility of the user to understand basic woodworking machinery settings and procedures and to properly maintain the equipment in accordance with the standards provided by the manufacturer.

Parts under warranty are shipped at Laguna Tools, Inc.'s cost either by common carrier, FEDEX ground service or a similar method. Technical support to install replacement parts is primarily provided by phone, fax, e-mail or Laguna Tools Customer Support Website. The labor required to install replacement parts is the responsibility of the user. Laguna Tools is not responsible for damage or loss caused by a freight company or other circumstances not in our control. All claims for loss or damaged goods must be notified to Laguna Tools within twenty-four hours of delivery.

Please contact our Customer Service Department for more information. Only NEW machines sold to the original owner are covered by this warranty. For warranty repair information, call 1-800-332-4094.
