

CLIMMATE

Portable all-in-one precision measuring and reference instrument in pocket size

HUMIDITY- / TEMPERATURE- MEASUREMENT

QUICK FACTS

CLIMMATE

Mobile on-site precision measurement

Battery powered portable instrument for measurement and calibration of humidity and temperature values. With colour touch screen display, data logger and integrated pressure sensor.

ADVANTAGES & BENEFIT

ALL-IN ONE, ACCURATE, SUITABLE AS REFERENCE, COMPACT, EASY TO OPERATE, VERSATILE

The resistive-electrolytic humidity measurement allows an accurate, reproducible and fast detection of humidity values across the whole range including high humidity levels. Thanks to the high measurement accuracy this device is best as a portable reference instrument. The integrated climatic calculator allows also the measuring of other climatic parameters. A data logger and pressure sensors are integrated too. Further external probes for CO₂, air speed etc. can be connected.

FEATURES

- BATTERY POWERED
- PROBES WITH CALIBRATION DATA STORAGE
- SUITABLE FOR HIGH HUMIDITY
- HIGH ACCURACY & ROBUST SENSORS
- WITH DATA LOGGING FUNCTION
- INTEGRATED PRESSURE SENSOR
- WITH CLIMATIC PARAMETER CALCULATOR
- LARGE GRAPHIC TOUCH-SCREEN DISPLAY
- FURTHER EXTERNAL PROBES (CO₂, AIR SPEED...)

AREA OF APPLICATIONS

- ON-SITE MEASUREMENT & CALIBRATIONS
- MOBILE USE OF EACH KIND
- AIR CONDITIONING MEASUREMENTS IN VARIOUS INDUSTRIES
- AND MORE...
