COMPLETE SOLUTIONS FOR YOU

SENCO Pribram spol. s r.o.

CZ - 261 01 Pribram I, Plynarenska 292

tel.: +420 326 534 311

e-mail: info@sencopb.eu

# Our competences

## PRODUCTION OF ELECTRICAL **CABINETS**

- production of LV cabinets for machines and production lines
- UL 508A approbation

## PRODUCTION OF EL. ENCLOSURES

- tailor-made solutions incl. stainless steel
- serial electrical enclosures
- powder coating of electrical enclosures and mech. parts

## **MECHATRONICS**

- deliveries from basic units to complete machines
- complex solutions

#### **ENGINEERING AND SW ACTIVITIES**

- creation and adjustment of projects
- SW adjustment, function tests

#### **ADDITIONAL SERVICES**

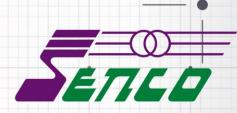

- export packing acc.FAO IPPS ISPM15
- assembly works-installation of electrical cabinets on site (within the EU)

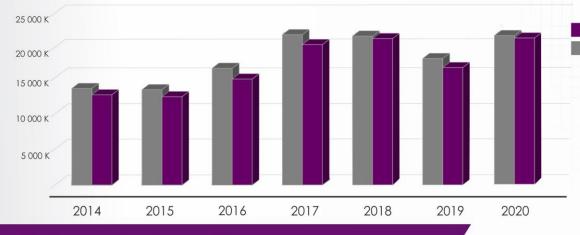

# Quality guarantee

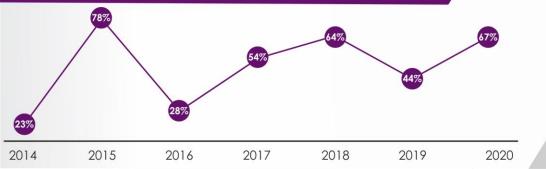

Claims for the past 8 years are in average of 0,07 % from turnover.

## Turnover 2020: more than EUR 20 000 000,-

## Reinvested profit

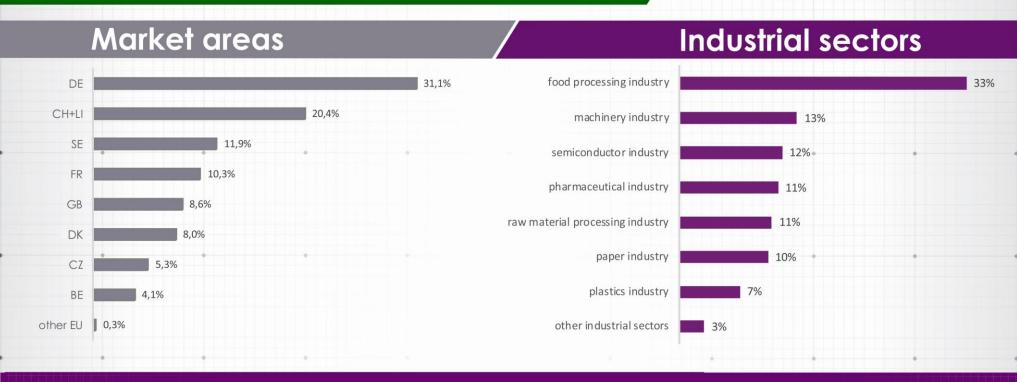

## X Market areas & industrial sectors

Main Business in West-Europe

Experiences from different branches

## CONSTRUCTION AND PRODUCTION

- custom-made low voltage control cabinets production of up to 1000 VAC or 1500 VDC rated voltage and 4000 A rated current
- for machines and production lines across all industries

#### OUR COMPANY SUPPLIES - CONTROL CABINETS TYPES

- power control cabinets and control of work machines
- control panels (panel switchgear)
- UL 508A approved control cabinets (CSA 22.2)
- pneumatic systems
- ESD

## **Enclosures**

#### **OPTIONS**

- stainless or powder-coated finish
- practically unlimited range of dimensions and colours
- foamed-in PU-sealing or clip-on sealing profiles
- verification of IP in own testing chamber
- variability of combinations

## OTHER OPTIONS

- electrical room for assembling of electrical cabinets - IP65
- sea container for assembling of electrical cabinets
- container for assembling of electrical cabinets
- base/plinth frame up to 200 mm

# Customized-made solution

## CUSTOMER SOLUTION OF ENCLOSURES

- custom-made enclosures
- non-standard cabinets and machine parts
- various frame designs, custom components
- diverse surface finishes (powder coating, colors, ...)

# X Washable design

## ELECTRICAL ENCLOSURES WITH SLOPING ROOF

- suitable for food-processing and pharmaceutical industry
- functional design, high level of resistance against dust and water (up to IP66)
- possibility of double-row sealing

## Pneumatic system

Only high quality connecting material of verified supplier

Makita

# Projection & SW services

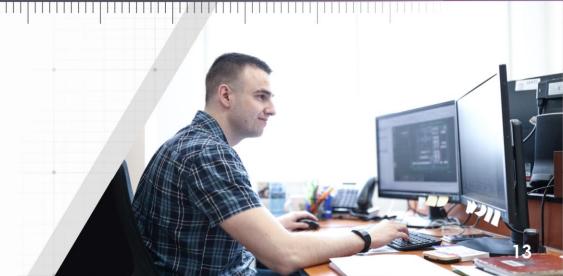

## PROJECTION IN E-PLAN

- projection of control and feed circuits of machines and technologic lines
- updates of older projects
- changes in E-Plan during production process
- processing small projects

## SOFTWARE

- engineering of control system SW for PLC: Siemens, Schneider, Omron, Allen-Bradley
- update of older SW versions
- installation of SW into PLC, HMI a VFD softstarters inc. function tests
- adjustment of frequency convertors, softstarters, transducers etc.

# FAT from your desk

check of realisation by HD Camera with remote zoom and motion

communication through secure encrypted VPN tunnel with using of standard net browser

possibility of complete functional tests or verification from "home office"

applicable for PLC SIEMENS, Schneider of **Rockwell** 

IT - safety granted - no SW installation on customer's PC required

> configuration and upload of PLC SW

real-time presentation of facilities, machinery and products

detailed video stream to the customer

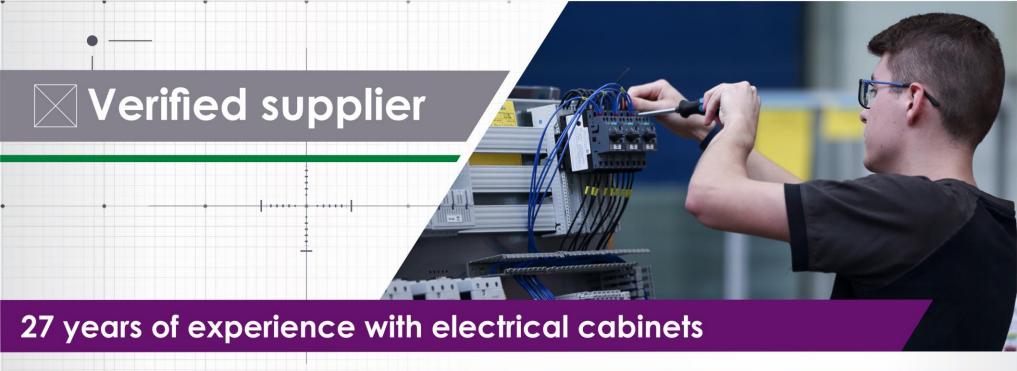

immediate reactions on tasks

time and cost saving for traveling

the unique solution of communication

requires Microsoft TEAMS software only (free)

15

## Certification of quality and EMS management,

ISO 9001:2015

Safe Enterprise

ISO 50001 Energy management systems

## Certification of welding processes

EN ISO 15085-2:2008, CL2

EN ISO 3834-2:2006

ČD V95/5, změna č. 5

## Certification of products

CE declaration of conformity

UL 508A (analogy to CSA 22.2)

CSC plaque for shipping containers

production acc. AS/NZS 3000

#### Certification in acc. with EN 61439-1 ed. 3. up to

 $I_{nA} = 1600A$ 

 $U_{i} = 800V$ 

 $I_{cw} = 50kA$ 

# Software equipment

processing of electrical wiring diagrams

3D processing of mechanical drawings

2D processing of mechanical drawings

processing of layouts

internally developed ERP

## **Modern production**

**TruPunch3000** punching machine

Mazak Quick Turn 200MY precision lathe

Mazak VC 530 vertical machining center

**Sonderhoff Dm402** foamed - in PU-sealing

**TruBend 5170** bending press

Schleuniger 36S automatic crimping machine

# Innovation OMRON

## INNOVATION

 Around 48 % of our average year profit is being invested back into the company development.

## CLEANROOM

ISO Class 8 certificated production.

## **ESD**

■ **Electrostatic discharge** - specialized workplaces to work with electrostatic sensitive devices.

## LEAN PRODUCTION

 Kaizen philosophy allows us to ship your order with required quality just-in-time.

## **I** EDUCATION OF EMPLOYEES

We are continually improving the work skills of our employees to achieve the best quality services we can provide.

# Clean Room

## **CERTIFICATION**

 Our CleanRoom production hall is certified according to EN 14644 class 8.

## **RULES**

 Workers are obliged to perform regular cleaning, bring material free of packaging, especially paper, and must place it on plastic pallets instead of wooden ones.

## **I** ESD

 Electrostatic discharge - specialized workplaces to work with electrostatic sensitive devices.

## **5S WORKSPACE LAYOUTS**

 Room is divided to single workstations with placement layouts for storing the goods to make the whole area more synoptic according to 5S.

## ROBOTIC VACUUM CLEANER

 We use a robotic vacuum cleaner as additional tool that helps us to keep the area clean.

# | Education of employees

Investment around 68.000 EUR per year
