TINSLEY 5941-3 CABLE TERMINATION UNIT

**NOW WITH
REMOTE
MONITORING &
CONFIGURATION**
via Wired LAN connection
(5941-3 version)

Tinsley 5941-3 CTU is the ideal termination unit for non-repeated submarine cables

It offers a simple method of selecting an open or short circuit condition and a safe means of discharging the cable

- ✓ Suitable for non-repeated cables
- ✓ Continuous cable monitoring
- ✓ Audible warning of change in cable electrical characteristics
- ✓ Provision for external alarm
- ✓ Allows easy access for connection of test instruments
- ✓ Rugged construction
- ✓ Safety interlock
