

We are proud to announce the establishment of Tapflo Benelux!

For many years it has been Tapflo's wish to have their own facility in the Benelux. This wish has now come to fruition as TAPFLO Benelux B.V. is in full operation from Jan 1, 2019.

TAPFLO Benelux B.V. has been founded to better serve our customers in the region and to be able to fulfill their needs more efficiently.

The company will serve Belgium, the Netherlands, and Luxembourg from its head office in Assen, The Netherlands.

TAPFLO Benelux combines many years of experience with the passion for fluid handling and pumps technology. The team of dedicated professionals provides proven reliable, cost-effective and innovative solutions upon customer specific requirements for any application. These values, together with an excellent level of service, makes TAPFLO Benelux B.V. the ideal partner for all your flow solution demands.
