

Tapflo supports Childhood Cancer Foundation

• Mar 12, 2018 13:37 GMT

We support the Swedish Childhood Cancer Foundation 2018

In the 1970s, a minority of children diagnosed with cancer survived. These days over 80% do. But that's not enough. Childhood cancer is still the most common cause of death in the ages 1–14.

The Tapflo company supports Childhood Cancer Foundation, the single largest financier of childhood cancer research in Sweden, which provides financial support to the development of new treatment methods and continuing education in the field of childhood cancer.

We strongly believe that it is possible to eradicate childhood cancer.
